

Urgent Transfer

Sending organisation can rely on the most urgent handling of the transfer from receiving partner: receiving organisation will credit receiving account on value date.

- Sending organisation can tailor execution times as short or as long as required by its originator and rely on credit to beneficiary on value date
- Transfer in sender's, receiver's or third country's currency
- Price Transparency: all price information is carried with payment, in accord with severest legal requirements. Option for requesting 'full amount'
- Enables variety of in-payment and out-payment channels in relation to the account transfer, covering the needs of both the corporate and private client. Can be tailored for local needs

Eurogiro Member benefits

- MultiLateral Framework for one-stop access to exchange of standard credits, with Service Level Agreements (SLAs), settlement solutions, Price Information Billboard, Data sharing services, Connectivity Certificate
- Option for bilateral agreements based on thick common layer; standard product, SLAs, master contracts & Code of Conduct
- Day to day settling of accounts, bilaterally or via single point of settlement by service providers improves cash management
- Automated distribution, delivery notification and tracking of transactions mean cut in production costs and faster handling of inquiries
- Very high Straight Through Processing Ratio, regularly monitored, along with the application of the time scale commitment in member institutions
- Access to advanced network distribution technology with interfaces for several levels of automated production: proprietary network and via SWIFT Closed User Group
- Eurogiro credit transfer standard built on prevailing SWIFT standard for easy and cost-effective entry into the traditional banking world; supplemented by SEPA Credit Transfer (SCT) according to European Payments Council (EPC) Rulebooks
- Very high security due to postbank dedication to payment handling and high degree of automation with very high capacity for bulk payments
- Participate in a community dedicated to developing cost efficient, high quality payment solutions

Urgent Transfer – Specifications

Service elements for participating organisation

- Sender can offer very short execution time: maximum three day transfer, including day of debit of account. Receiving organisation commits to credit beneficiary account in own books on value date.
- Participate to:
 - send transfer in receiver's currency, and maybe in sender's and third country's currency *or*
 - receive transfer in receiver's currency, and maybe in sender's and third country's currency
- Mandatory exchange of standard exception messages for instance queries & answers (maximum time frame applies)
- Full pass on of all payment information
- Option to bulk payments in very large bulks
- Conditions for exchange of Urgent Transfer can be agreed on bilateral basis also among participants in MultiLateral Framework

Settlement

Eurogiro payments are settled each day.

Settlement is agreed bilaterally, but settlement scheme is part of MultiLateral Framework.

Single point of settlement service available using service provider for instance for EUR and USD.

Alternatively, the settlement is on an account with the country whose currency the payment is made in. Transactions in third country currency require account with bank in third currency country.

Implementation requirements

- Participation in MultiLateral Framework or signing of relevant Service Level Agreements and bilateral agreements

- Implementation of the Eurogiro message type MT103-23 (receiver's currency) and maybe MT103-13 (sender's currency) and MT103-33 (third country's currency)
- Opening of accounts with the settlement service provider to settle transfers, perhaps supplemented with bilateral account relationships with Eurogiro members or with third bank if necessary
- Implementing exchange and handling of electronic exception messages like queries by use of Eurogiro MTn95 and MTn96 and audited security measurements
- Participation in exchange of price, volume and quality information, as well as exchange of basic member data
- Participation in quality tests and ad hoc surveys

Technical requirements

- Installation of Eurogiro Local System, (ELS) at an agreed entry level, including establishment of relevant network connection, for instance MPLS based IP or internet

Alternatively, installation of SWIFT connection via SWIFT Eurogiro Closed User Group (SECUG)
